PROJECTS

Complaint Management
Complaint management involves receiving and addressing student concerns related to academics, facilities, or services in a timely and fair manner. It includes recording issues, coordinating with departments, and ensuring proper resolution. An effective complaint management process helps improve the student experience and maintain a supportive learning environment.

Food Sharing
A food sharing app is designed to connect people who have surplus food with those who need it, helping to reduce food waste. The app allows users to post available food, request items, and coordinate pickups. It promotes community support, sustainability, and efficient food distribution.

Task Management System
A task management system for office use helps organize, assign, and track daily tasks and projects among employees. It allows monitoring of deadlines, progress, and responsibilities to improve productivity and teamwork. Such a system ensures better time management and efficient workflow within the organization.
